

**Directions for use:**

1. Place harness on dog, so that the metal D-ring is on dog's back, facing the tail.
2. Unbuckle straps and place shorter strap around the dog's neck. Fasten buckle.
3. Pull dog's front right leg through harness.
4. Bring longer strap behind the dog's front legs and fasten buckle.
5. After fastening buckles, use plastic slides to adjust straps. Leave enough room for two fingers to fit under the straps.
6. Attach the safety strap swivel clasp to the D-ring on the back of the harness.
7. Insert the safety clip into the seat belt buckle on the vehicle's seat.
8. Adjust the safety strap to desired length so that pet can comfortably sit, lie, or stand in the seat.
